PROFESSIONAL SUMMARY

Computer Science graduate (Air University, 2026) with 2 years of freelance experience building and delivering full-stack web applications for international clients. Experienced in developing responsive React.js frontends, Node.js/Express.js backends, RESTful APIs, MongoDB databases, authentication systems, and real-time features. Built and deployed production-ready applications independently, from requirements and development through deployment.

TECHNICAL SKILLS

Full-Stack Development: React.js, Next.js, Node.js, Express.js, JavaScript, TypeScript

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend & APIs: Node.js, Express.js, RESTful APIs, API Integration, Authentication, Authorization, JWT, OTP Authentication, Socket.IO

Databases: MongoDB, MongoDB Atlas, Mongoose, MySQL, Firebase Firestore, Supabase, SQL, NoSQL, CRUD Operations, Database Design

Platforms & Services: Firebase, Cloudinary, EmailJS

Development Tools: Git, GitHub, Postman, Vercel, Netlify, Hostinger

Software Engineering: Object-Oriented Programming, Data Structures, Debugging, Testing, Clean Code, Agile

PROFESSIONAL EXPERIENCE

Fiverr

2024 – Present (2 Years)

Freelance Full-Stack Developer (MERN) / Remote

- Designed and developed full-stack MERN web applications for international clients, covering React.js frontends and Node.js/Express.js/MongoDB backends.
- Built modern, responsive React interfaces with clean UI and cross-browser compatibility tailored to client requirements.
- Designed RESTful APIs and MongoDB schemas to support scalable, production-ready backends.
- Delivered end-to-end custom websites from initial requirements through to production deployment on Vercel, Netlify, and Hostinger.
- Managed client communication, project scope, and delivery timelines independently across multiple concurrent projects.

SELECTED PROJECTS

Awaz-e-Shehr — AI-Powered Civic Complaint Management Platform

React.js, Node.js, Express.js, MongoDB Atlas

- Built a full-stack MERN web platform allowing residents of Islamabad to report civic issues such as sanitation, water supply, and infrastructure damage.
- Implemented complaint classification, urgency-based prioritization, and automated department routing logic within the Node.js/Express backend.
- Enabled real-time communication between citizens and field officers using Socket.IO, with secure JWT and OTP-based authentication.
- Built an administrator analytics dashboard to monitor complaint resolution and overall service performance.
- Deployed on Vercel and Netlify.

Prime Reel Agency — Video Editing Agency Website (primereel.us)

React.js, Tailwind CSS, Node.js/Express.js, Firebase, Cloudinary, EmailJS

- Designed, developed, and deployed a responsive marketing website for a professional video editing agency serving creators and businesses.
- Built a fast, SEO-optimized React.js frontend with clean UI showcasing services, portfolio, and client inquiry flows.
- Handled end-to-end deployment and hosting on Hostinger, configuring the live production domain at primereel.us.

EDUCATION

Air University, Islamabad

2022 – 2026

Bachelor of Science in Computer Science (BSCS)
